1325 T/C from Deputy Marshal
Dubane RCMP regarding
some clarification on
use of force during the
protest, specifically as it
related to possible CS
deployed. I clarified
my belief based on I
during one of various media
conferences re. what news
and my understanding
that small burst of CS
may have been deployed.
Will inquire and get back
to him.

1340 Probe is comp. Dave
Springer. His recollection
was that the SQ POI command
requested to use direct CS
however it was denied.
Alternatively, its his belief
that Mark 9 OC was deployed.
He advised OLS Sgt Hangan
is compiling all use of force
for various offences

and he'll reach out to
him for accuracy.
1352 Speke is Deputy Director
and updated - more to
come once we have
specimens.

received from Flanagan &
Sprunger re: above
